### Top Five Lowest Stages

Period of Record - 1999 to September 30, 2016

Date	Crest (ft)	Flow (cfs)	Remarks
9/16/1996	0.52	missing	Questionable - Data is limited for this time frame.
1/14/1998	0.64	missing	Questionable - Data is limited for this time frame.
7/18/1997	0.68	missing	Questionable - Data is limited for this time frame.
6/19/2001	0.87	1,392	none
9/22/2000	0.88	1,401	Also occurred 9/10 - 13/2000 and 8/31/2000

### Additional Low Stage Information

Date	Crest (ft)	Flow (cfs)	Remarks
10/15/2014	0.98	missing	Also occurred 9/25-26/2014 and 10/3-4/2014 and 10/6-7/2014 and 10/14/2014. Readings missing from 9/26/2014 (1045am) - 10/3/2014 (245am).

### Additional Remarks

Low water records are somewhat limited. Therefore some low stages could be missing. Our low stage listing includes valid and sometimes questionable stages. In some cases we have a brief list of questionable stages since it was unclear if the readings were due to a gauge malfunction or there wasn't enough data to determine its validity. Low stage (if found) are listed if there hasn't been any low stages in the last 15 years. The USGS sometime tweak their readings so please contact the USGS if you need more information.
